

## Spot welder Double Jacketed Gasket Machine

Code: KXT E1410

### Description

Special designed to produce double jacketed gasket: 1.5-8.0mm thick, width ≤ 80mm, diameter 150-4000mm.

### Double Jacketed Gasket Machine

Product number: KXT E1410

Item no.: KXT E1410

KXT E1410 style machine is special designed to produce double jacketed gasket.

Producing Ability: Double jacketed gasket 1.5-8.0mm thick, width 80mm, diameter 150-4000mm.

### Specification as following::

STYLE	KXT E1410 Double Jacketed Gasket Machine
Double Jacketed gasket thickness	1.5---8mm
Double Jacketed gasket width	80mm(Standard machine package include models for 8 different width, other width models available for custom-made)
Maximum gasket OD	4000mm
Minimum gasket ID	150mm
Total power	4kw
Spindle motor power	1.5kw
Power supply	380V/220V as request, 3 phases
linear speed	0--150mm/s
Frequency Converter	2.2G
Machine measurement	900*500*1200mm
Machine net weight	200kg
