

# Pure Graphite PTFE Packing with Oil

Code: KXTP202

## Description

Pure Graphite PTFE Packing with Oil made of 100% graphite PTFE yarn. And re-impregnated with a silicone lubricant. It is a economical graphite PTFE packing.

Item no.: KXTP202

Pure Graphite PTFE Packing with Oil

Item no.: KXTP202

- \* Tough and durable
- \* Self-lubricant, heat and chemical resistant.

## Typical Application

- \* For used in pumps, valves, reciprocating and rotating shafts, mixers and agitators
- \* Can be safely used in all chemical pump applications with the exception of molten alkali materials, fluoride, fuming nitric acid and other strong oxidizing agents.
- \* It is against water, steam, petroleum derivatives, vegetable oil and solvents.

## Technical Data

| Material          |               | 100% CGFO Yarn         |
|-------------------|---------------|------------------------|
| Temperature Range |               | -150 up to +280 oC     |
| Process           | Rotating      | 25 bar                 |
|                   | Reciprocating | 100 bar                |
|                   | Static        | 200 bar                |
| Shaft Speed       |               | 16 m/s                 |
| PH                |               | 0~14                   |
| Density           |               | 1.65 g/cm <sup>3</sup> |
